- Demo Live => <https://e-commerce-react-hooks-app.netlify.app/>
- Github Repo => <https://github.com/omarelkamah/E-Commerce-App-React>

## ● MY PORTFOLIO APP

Build my Portfolio Using React Js and Redux Toolkit To make portfolio Easy to Update, With Clean Code. The Features And Technologies: :

- Using Redux Toolkit To Add Dark Mode .
- Using React Router Dom For Each Project.
- Using React Reveal To Add Animations.
- Bootstrap Grid System.
- Create Data For Projects Too Easy To Use.
- Using Scss To Add Style.
- Full Responsive.

- Demo Live => <https://omar-ahmed-portfolio.netlify.app/>
- Github Repo => <https://github.com/omarelkamah/My-Portfolio-With-React-And-Redux-Toolkit>

## ● FULL RECIPE APP

Build Full Recipe Website Using React Js With All Functionality in Recipes Websites To make Website Easy to Update, With Clean Code.

The Features And Technologies:

- Using Api And Axios To Get Recipes.
- Search Functionality.
- Every Recipe Has Its Details.
- Using React Splide To Add Slider.
- Using Local Storage To Store Data From Api.
- Using Framer Motion.
- Full Responsive.
- Using Styled Components To Add Style.

- Demo Live => <https://full-recipe-app.netlify.app/>
- Github Repo => <https://github.com/omarelkamah/Full-Recipe-App>

## ● **ATTIA AHMED GRAPHIC DESIGNER PORTFOLIO**

Build Attia Ahmed portfolio Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

Using React Router Dom For Each Project.

Using React Reveal To Add Animations.

Bootstrap Grid System.

Create Data For Projects Too Easy To Use.

Each Project Has a Link.

Each Category Has a Link.

Using Scss To Add Style.

Full Responsive.

- Demo Live => <https://attia-ahmed.netlify.app/>

- Github Repo => <https://github.com/omarelkamah/Attia-Ahmed-Portfolio>

## ● **CRYPTOCURRENCIES REACT APP**

Build Cryptocurrency Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

Using Api And Axios To Get Cryptocurrency.

Using React Router Dom For Each Cryptocurrency .

Can Load A Lot Of Cryptocurrency With Show More Button.

Get Cryptocurrency Price And Update It

Every Cryptocurrency Has Its Details.

Each Category Has a Link.

Using Sass To Add Style.

Full Responsive.

- Demo Live => <https://cryptocurrency-react-app.netlify.app/>

- Github Repo => <https://github.com/omarelkamah/Cryptocurrency-React-App>

## ● **WEATHER REACT APP**

Build Weather Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

Full Responsive.

Using Api And Axios To Get Weather.

Get Updated Temperature .

Add Search Functionality.

Using Css To Add Style.

Full Responsive.

- Demo Live => <https://weather-react-app0.netlify.app/>

- Github Repo => <https://github.com/omarelkamah/Weather-React-App>

- **BLOG REACT APP**

Build Blog App Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

- Create Modern Ui.

- Using React Router Dom.

- Using Scss To Add Style.

- Full Responsive.

- Demo Live => <https://blog-react-web-app.netlify.app/>

- Github Repo => [https://github.com/omarelkamah/Blog\\_App\\_React](https://github.com/omarelkamah/Blog_App_React)

- **AGENCY REACT APP**

Build Agency Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

Full Responsive.

- Create Modern Ui.

- Using React Router Dom.

- Using Styled-Components To Add Style.

- Full Responsive.

- Demo Live => <https://agency-react-web-app.netlify.app/>

- Github Repo => <https://github.com/omarelkamah/Agency-App-React>

- **CERIGHT REACT APP**

Build Chricht Restaurant Website Using React Js To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

- Create Modern Ui.

- Using React Router Dom.

- Using Scss To Add Style.

- Using Bootstrap.

- Full Responsive.

- Demo Live => <https://cericht-resturant.netlify.app/>

- Github Repo => <https://github.com/omarelkamah/CERIGHT-Resturant>

- **EDUCATION.COM WEBSITE**

Build Education.com Website Scss To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

- Using HTML/HTML5.

- Using jQuery.

- Using Scss To Add Style.

- Using Bootstrap.

- Full Responsive.

- Using JavaScript.

- Demo Live => <https://omarelkamah.github.io/education/>

- Github Repo => [https://github.com/omarelkamah/Education\\_Sass](https://github.com/omarelkamah/Education_Sass)

- **CRISPY.COM WEBSITE**

Build Crispy.com Website Scss To Make Website Easy to Update, With Clean Code.

The Features And Technologies:

Using HTML/HTML5.

Using jQuery.

Using Scss To Add Style.

Scss Folder Best Structure.

Using Bootstrap

Using JavaScript.

Full Responsive.

- Demo Live => <https://omarelkamah.github.io/Crispy/>

- Github Repo => <https://github.com/omarelkamah/Crispy>

## Language Skills

- Arabic (*Native, Mother Tongue*)
- English ( *Conversational* )
